EDUCATION

Georgetown University Master of Science in Data Science and Analytics	Washington, DC Expected Graduation: Spring 2027
George Washington University PhD-level course in Econometrics	Washington, DC Spring 2024
University of Maryland – College Park Bachelor of Science, <i>cum laude</i> , Dual Major in <i>Economics (Honors) & Mathematics</i> (Statistics track) Minor in <i>Global Poverty</i> , Dean's list, GPA: 3.91/4.00	College Park, MD Spring 2022

WORK EXPERIENCE

Federal Reserve Board, Division of Research & Statistics <i>Senior Research Assistant</i>	Washington DC July 2022 – July 2025
• Collaborated with economists to forecast US GDP and private fixed investment using time-series methods (OLS, local projection, structural VAR, dynamic factor analysis); maintained macroeconomic databases and produced visualizations and analysis for monthly policy memos, eventually contributing as a co-author • Authored memo evaluating what reduced-form time-series regressions reveal about spending momentum • Co-authored memo evaluating investment forecasting models built on business sentiment indexes derived from a dynamic factor model • Wrote program using STATA to run structural VAR for analyzing investment responses to tightening lending standards reported through the SLOOS; presented findings to colleagues • Developed programs to decompose contributions to medium-term investment growth forecasts; presented findings to colleagues • Contributed to implementation of dynamic hierarchical factor model to predict investment using MATLAB • Trained new research assistants and assisted with Board-wide coding trainings	
University of Maryland, Department of Economics <i>Research Assistant</i>	College Park, MD Spring 2022
• Collected and cleaned data on Mexican elections using STATA and Excel	
<i>Teaching Assistant</i> , Introduction to Econometrics	Spring 2020
• Guided review sessions, held office hours, assisted students with research projects	

RESEARCH EXPERIENCE

Federal Reserve Board Research	July 2022 – July 2025
• Collaborated on multiple high-profile projects, including "The Variance of Achievement Increases During Childhood" (2024), "Partial Homeownership: A Quantitative Analysis" (2023), "House Price Growth and Inflation During COVID-19" (2022), and "Excess Savings During the COVID-19 Pandemic" (2022) • Conducted analysis and compiled data on trends in intangible investment near recessions	
Economics Honors Thesis	Fall 2021-Spring 2022
• Researched relationship between property rights, income inequality, and democracy
